Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- A cold air mass will remain in place through the weekend, with near-freezing to sub-freezing conditions expected during the overnight and early morning hours for areas in Northern and Southern California.
- Freeze Watches and Warnings and Hard Freeze Watches and Warnings in effect throughout a large portion of the California coast, as well as the Sacramento and San Joaquin Valleys, and the Inland Empire.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Dry and unseasonably cold weather will persist through the weekend. A period of light rain and high elevation snow will be possible during the day Monday.

Medford Weather:

Skies will remain clear across the forecast area, except for the Umpqua Valley where low clouds and fog have formed once again. This fog will remain in place through the morning and early afternoon, keeping temperatures cooler today. There will be little change through the weekend as a blocking ridge remains over the Pacific Northwest, and this is preventing any storm systems in the Pacific from reaching the forecast area.

Reno Weather:

Cold low pressure will remain over the Great Basin through today before moving eastward on Sunday as a ridge builds into the west. This will lead to strengthening inversions and possibly deteriorating air quality early next week. The next system of note will impact the region Thursday into Friday with travel impacts in the Sierra possible.

San Francisco Weather:

Dry and cool weather will continue through the weekend with areas of nighttime freezing temperatures forecast across inland areas. Temperatures will begin to moderate early next week. There is also a chance of rain developing by the middle portion of next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Mainly dry conditions this weekend with cold morning temperatures. The next chance for precipitation will arrive late Wednesday into Thursday.

Hanford Weather:

A few showers will be possible today mainly over the Sierra Nevada Mountains. Otherwise dry weather will prevail across the central California interior through the weekend with patchy late night and morning frost and fog in the San Joaquin Valley. Temperatures will average slightly below normal through the period.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

An upper level low over the Great Basin will keep temperatures below normal through the weekend. A warming trend is expected early next week as the upper level low exits to the east and an upper level high builds overhead. Showers are possible late next week as an upper trough moves to the north of the area.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

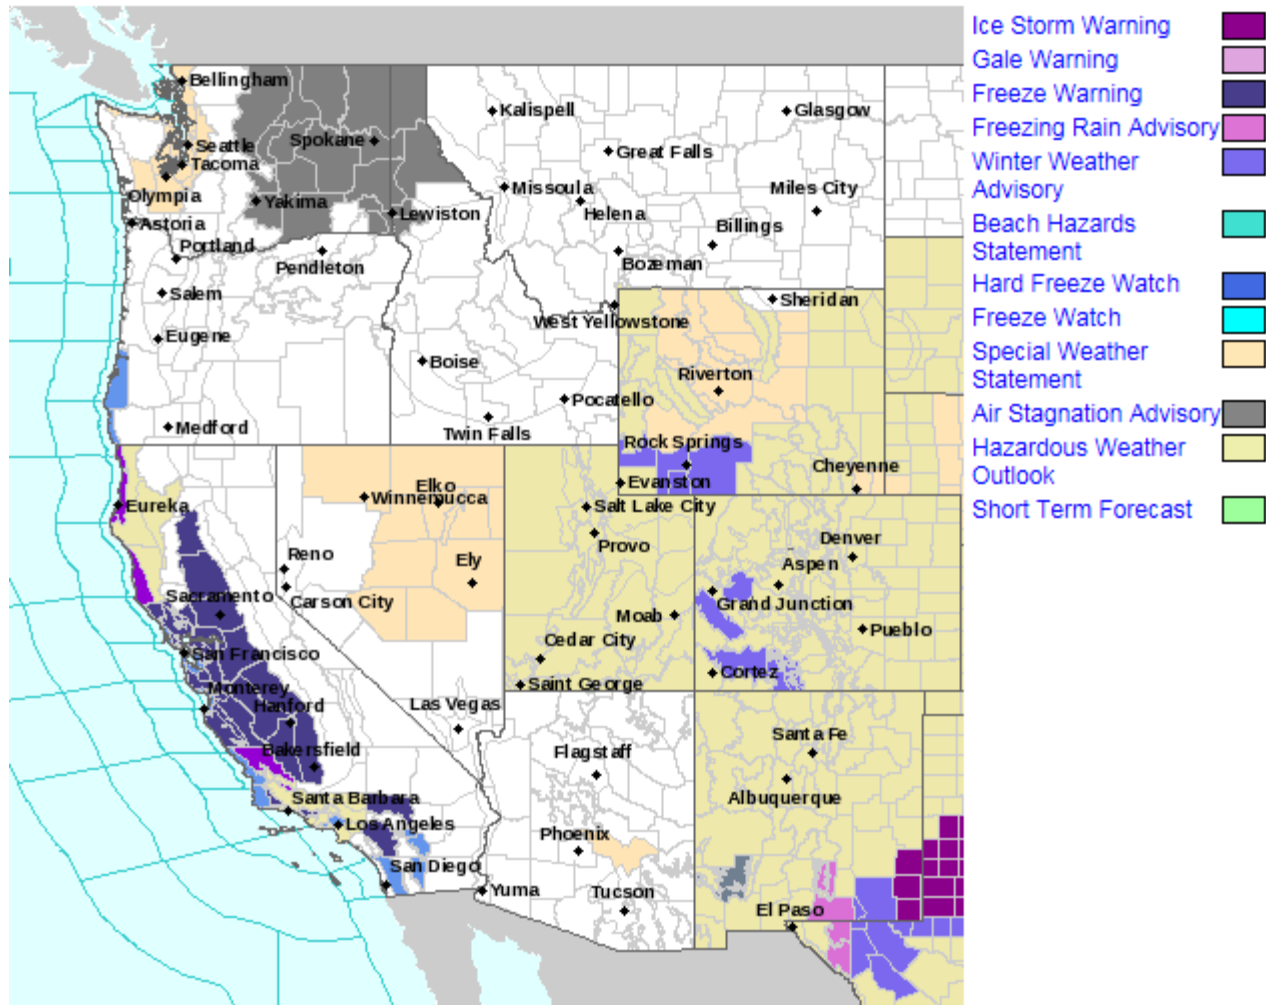

A cold upper low over the Great Basin will continue to bring cool days and cold nights through this weekend. Overnight lows may fall below freezing in the inland valleys and desert areas. It will be dry and warmer next week with weak offshore flow persisting.

Southeast California Weather:

A cool Pacific weather system will remain across the southwestern United States through the weekend bringing below normal temperatures and occasional clouds. Slightly below normal temperatures will persist into early next week, while gradually warming back to near normal for the middle of next week. Dry weather should persist through much of next week.

STATE WEATHER MAP

Last map update: Nov, 28th 2015 at 10:53:40 am MST

Cold Mornings This Weekend

Sunday Morning Lows (F)

Temperatures:

- Valley: Mid 20s – Low 30s Sunday
- Mountains: Teens – Single digits

Impacts: Approaching some Nov 29th records

- Valley: Sensitivity to pets/plants
- Mtns: Plumbing & Animal dangers

Safety Tips:

- Wear several layers of clothing to stay warm
- Protect your animals, plants, and pipes!

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought
